SUBJECT: INTEGRATED PEST MANAGEMENT (IPM)

As part of our commitment to provide your child with a safe, pest-free learning environment, The Harmony Independent School District may periodically apply pesticides to help manage insects, weeds or pathogens. Pesticide applications are part of our integrated pest management (IPM) program, which relies largely on non-chemical forms of pest control. Pesticide applications on Harmony Independent School District property are made only by trained and licensed technicians. Should you have questions about our district's pest management program or wish to be notified in advance of pesticide applications, you may contact our Superintendent or IPM coordinator during business hours.
